WIRELESS TELECOMMUNICATIONS BUREAU ANNOUNCES UPGRADES FOR 800 MHz CELLULAR SERVICE FILINGS IN ULS

The Wireless Telecommunications Bureau has upgraded the Universal Licensing System (ULS) for filings by licensees and applicants in the 800 MHz Cellular Service. The enhanced, web-based software will, by providing greater system accessibility and reliability, improve the ability of Cellular licensees and applicants to conduct electronic licensing activities. As part of the enhanced functionality, ULS will now accommodate filings for Cellular systems that operate using a power spectral density (PSD) model.¹ Customers with questions regarding the ULS enhancements may contact the FCC Licensing Support via the web at <https://www.fcc.gov/wireless/available-support-services>, or by telephone at 1-877-480-3201 (select option #2). The support hours of operation are 8 a.m. to 6 p.m. EST, Monday through Friday (except Federal holidays). The revised FCC Form 601, which reflects the Cellular power and other rule changes adopted in the *Second R&O*, is available on the FCC Forms Page: <https://www.fcc.gov/licensing-databases/forms>.

Action by the Chief, Mobility Division, Wireless Telecommunications Bureau.

- FCC -

¹ Compliance with effective radiated power limits based on PSD is an option provided under the revised Cellular power and related technical rules adopted by the Commission and now in effect. See 47 CFR § 22.913; Amendment of Parts 1 and 22 of the Commission's Rules with Regard to the Cellular Service, Including Changes in Licensing of Unserved Area (other captions omitted), *Second Report and Order, Report and Order, and Second Further Notice of Proposed Rulemaking*, WT Docket Nos. 12-40 and 10-112, RM Nos. 11510 and 11660, 32 FCC Rcd 2518 (2017) (*Second R&O*); 82 Fed. Reg. 55766 (Nov. 24, 2017) (announcing Dec. 1, 2017, as the effective date of rule changes that required prior approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act, noting that OMB also approved corresponding revisions to FCC Form 601, FCC Application for Radio Service Authorization).
